Note- Estimated proportional contributions (Est), standard deviations (S.D.), coefficient of variation (CV), and 90% credibility intervals (90% CI) by reporting group of Chinook salmon caught in the District Y-2 Pilot Station Test Fishery, 2012.

Above- Estimated country-of-origin stock proportions of Chinook salmon caught in District Y-2 Pilot Station Test Fishery, 2012 . Error bars note the 90% credibility intervals (90% CI) .

District Y1 and Y2 subsistence fisheries

Sample from District Y1 includes the communities of Alakanuk, Emmonak, and Kotlik.

Sample from District Y2 includes communities of Mountain Village, St. Mary's, and Marshall.

Each sample represents the entire season

Estimates to be considered preliminary
